the interest of all parties who have proper-ty to dispose of to put it into my hands for tale. I will handle town or city property in the different points in Hays and surroundcounties, and also handle farms, ranches the county. I will very soon have an July 10th tf.

Scores are. We are receiving a fresh apply of wagon material. G. W. DONALMON.

Hays County and the Exposition.

We confess we have been somewhat disappointed and ashamed at the hitherto bortive efforts, made in this county towards being favorably represented at the great exposition at New Orleans. Meetings of both ladies and gentlemen have been essayed, but soon came to nought. We are inclined however to hope for better things from the movement now on foot, the announcement of which will be found in another column. We would earnestly this last effort a fine success. It will be seen that it is not confined to our town, but that it is proposed to enlist the entire people of the country in a combined movement

This is as it should be.

We frequently hear people say that they do not see what our county has to show that will be creditable to her. This is a short-sighted view. For the partial enlightenment of this class, we beg to refer them to an article in another column from Commissioner Elliott, which sets forth in his health is entirely restored. some detail the various exhibits which may be made. We need not say that various additions might be made, so far as our Jr. Mosher & Gladue have the job.

Railroad to Luling.

county is concerned.

This is a subject which we have heard Now we need not do more than refer to the proceedings of the meeting in another column. The project looks to be feasible, and its execution would certainly be of first the artistic line class importance to our town and to the people along this route. Down the river they are almost unanimously for it, both Mr. Burditt, proprietor of the well known sides contending for the route. We earnestsides contending for the route. We earnestly hope to see the road put through.

WE TAKE IT ALL BACE .- Soon after the issue of our last, we received a call from two prominent ladies, who came, they said, to assure us that we had made a mistake in stating that the organization of the Wowas about to be a failure. They stated that on the contrary it was going on, several ministers had been enlisted, and meetings been had, and that they were encouraged to go forward. We are heartily glad to be corrected in this case, believing such organization may be made the means of much good in our town and vicinity. We are glad further to state that the ladies having asked for the use of a column of the Free and excellent teacher and a gentleman. Pages, it is hereby placed at their service whenever they may wish to begin such a hear Dripping Springs, and proposes with department. We feel sure they will be able to make it of interest and profit to our place in the real estate business. See his to make it of interest and profit to our

THERE is or we trust will be one very im portant use and result of the water-works, which perhaps has not been generally considered. They will enable people having cisterns to clean them out when needed, and thus promote greatly the health of our town. Heretofore people have hesitated about cleaning their cisterns, even when they knew it was very badly needed, lest it licious, demonstrating what can be done in might not rain for six months or so, as not that line by proper cultivation and attention. they knew it was very badly needed, lest it unfrequently happens in this country. The The announcement of James Green Bur-leson, for re-election as Clerk of the District baye become filthy and deleterious to health. and County Courts, appears in our present It has been a great puzzle to physicians as well as others why typhoid fevers should very acceptable officer; we believe we have occur here, as they sometimes do. In a Mrs. Garwood, of Bastrop, nee Miss Nina country so healthy as this, and with an air Pfeuffer, so dry and pure, the disease must result Some anonymous scribbler from Kyle for the Blanco Star of last week, writes himself together likely such cause might mainly be together likely such cause might mainly be who resides on the Blanco, the wagon wheel traced to the foul uncleaned cisterns. In all points of view the experiment is certain-first thought Mrs. Vs arm was broken, but there is only a false alarm. ly well worthy of being made.

The Commissioners' Court of Guadalupe gard his diatribe as unworthy of further and Caldwell counties have united to build a bridge over the San Marcos river at Martindale. Our Commissioners have appropriateed \$600 for this purpose and have apobject, advertise for bids, etc. We congratulate our friends about Martindale upon and about as varied as that of Maj. Donalthis addition to their facilities for travel. -Seguin Times.

"Come to your quinine." This is the familiar old army tune that these cold nights and mornings is playing for many of our citizens. It has been a long time since this portion of Indiana was getting such a shak ng up as it is now. Ague and malarial are rife, and care must be taken or more dangerous types of disease will follow in their footsteps as the season advances.

We clip the above from an Indiana news paper published in our part of that State. which is regarded as the healthiest. It sounds oddly to us as coming from there, and especially here in Hays county, Texas, where ague is almost unknown.

Commissioners are now ex-officio supervisors of all the roads in their districts and they will have to report at the February ciety, will meet at the Court House on next term of the court all derelictions of over seers. This report goes before the grand jury for their action. "A word to the wise should be sufficient,"

It is with sincere regret that we have record a very serious condent to the wise should be sufficient."

The above, which we clip from the Seguin Times, is commended to whom it may concern" in this county.

Rallroad Meeting.

A considerable number of our citizens me at the office of Judge Fisher in this place on Friday evening last to consider the subject of a railroad to Luling. Judge Pisher stated that he had been in correspondence with Mr. Converse of the Sunset road, who had suggested the idea of extending a tap road to this place. He stated the Sunset company had the iron and other material on hand, and intimated that if our people would give them the right of way and depot grounds, they might build the road.

After a general interchange of sentimes by gentlemen present, Judge Fisher was called to the chair and I. H. Julian appointed secretary.

A motion of Maj. Hutchison, that a com mittee of three be appointed to communicate with the authorities of the Sunset road and try to induce them to order a survey of the route, and state on what terms they

would build it, was made and carried. The chair appointed J. V. Hutchins, W. O. Hutchison and W. D. Wood said committee, to which on motion the chairman

was added. Adjourned to meet at the call of the chair-

I. H. JULIAN. STERLING FISHER. Secretary. Chairman "That Fire."

En. FREE PRESS.-The alacrity with which our "fire boys" responded to the alarm last week, augurs well for their efficiency should they be called where their services ould be available.

Ten minutes after the alarm was sounded on the night that Puss Wright's house was burned, the Hook & Ladder Truck was on the ground, well manned and ready for service. A member of the Hose Co., was the first white man at the fire.

The false alarm on the evening of the 15th. has been severely denounced, and regarded as reprehensible by many, who have not thought of the purpose for which it was intended. In so far as the object was to find out with what prompti ude the members of the company would respond to an "alarm," it was significant. Within five minutes of the first cry of fire a stream of water was pouring on the flames, and the boys, many of whom were in attendance at the general social gatherings in town, clad in their "Sunday best" gave no thought to their clothes but rushed to the front. Alarms of this kind are necessary, and while they may be objected to by the nervous "old ladies" of

both sexes, they cannot be dispensed with. The recent conflagrations at San Saba, Lampasas and Greenville, should prompt our people to deal leniently with the efforts of the Fire Boys to promote and demonstrate their efficiency.

A few words of encouragement would be in better taste than so much censorious comment. The time may come when they will be tried, should they fail at that time no excuse should be offered and none acepted for their dereliction, until then the people must bear with an occasional disturbance, if disturbance it is to call the company together without previous warning. Respt.,

CROAKER. For The Faux Pauss,

Who Got Mad About It! Well, one man thought the town was on fire, so he proceeded with the greatest deliberation to stick his leg through his coat On Saturday while Goo. VanEvery and sleeves. He got mad because this way of Adom, B. B. Anderson, H. putting on one's garments is a very sane and Blackwell, T. J. useful idea in case of a real fire, but at the Brehur, Henry A. same time makes one feel like a fool when

> Another man thinks it is all well enough to allow an excitable citizen to tear his shirt on a picket fence and rush barefooted through broken glass bottles; -it being a well known fact that such enthusiastic individuals with their bleeding feet and mangled night clothes, prove to be of great service in case of real fire. But to be so willing and so well prepared for a night's struggle, to be so cool and so determined to

The above gentlemen are good citizens, and have our sympathies. But here is a man whose accident on account of the false alarm ought to put him on the track of countless wealth.

This gentleman of majestic proportions, mistaking the number of steps from the den, on the way to the depot. He has a splendid piece of ground, and has raised a large amount of "garden truck." We notice he has a patch of tobacco growing among his other "vegetables."

mistaking the number of steps from the gallery floor to the ground, took no time to count them, and consequently fell on the hard earth with such prodigious force as to tear up a place big enough for a cistern. count them, and consequently fell on the Aug.14: 7w overseers of roads of their duty to provide sign-boards at all cross-roads and to put up mile posts on their respective roads. The somewhere in Fairfax county, Va., at our saggestion recently had a notice inserted in the paper published at Fairfax C. H. In if left to his own invention, he might take consequence he informs us he has already up the whole of his invaluable time in falling over front yards without ever getting himself to the scene of danger. Now if this gentleman would take contracts for falling around over the country where the people want excavations for tanks and other purposes, his fortune is made. Just think what the ship canal projectors would give for this
